CAREER OBJECTIVE

Motivated and detail-oriented third-year Computer Science Engineering student with strong knowledge of Python programming, web technologies, and AI-based applications. Passionate about software development, problem-solving, and learning new technologies. Seeking an opportunity to apply my technical skills and gain practical industry experience in software and web development.

EDUCATION

B.E. in Computer Science Engineering

GEC Huvina Hadagali

Visvesvaraya Technological University (VTU)

Expected 2027

3rd Year

CGPA: 8.0 / 10

PROJECTS

Mini Project – Data Encryption & Decryption Using AI

Tech: Python, AI Concepts

- Developed a mini project for secure data encryption and decryption using AI concepts.
- Implemented Python programming for secure data handling and processing.
- Focused on improving data security and privacy using algorithmic approaches.

Major Project – AI-Driven User Behavior Analytics for Threat Detection

Tech: Python, React JS, Node JS, HTML/CSS

- Developed an AI-based security system to analyze user behavior and detect account takeover threats.
- Used Python for backend logic and AI/ML model implementation.
- Built frontend using React JS and HTML/CSS for a responsive user interface.
- Integrated Node JS for backend API handling and data processing.
- Improved threat detection accuracy using behavioral analytics techniques.

INTERNSHIP

Python Programming Intern — CodeAlpha

Online Internship

- Completed an online Python internship focused on practical programming tasks.
- Worked on Python assignments and real-world project development.

TECHNICAL SKILLS

Python	HTML
CSS	JavaScript
React JS	Node JS
Web Tech	AI & ML

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Quick Learner
- Adaptability

ACHIEVEMENTS

- Maintained 8.0 CGPA consistently in all semesters.
- Participated in a 24-hour Hackathon competition.
- Completed Python internship at CodeAlpha.
- Active in technical learning & project development.

LANGUAGES

- English – Proficient
- Kannada – Native
- Hindi – Conversational

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.

- Improved coding, debugging, and problem-solving skills through hands-on tasks.
